## Rescue Squad Warns of Danger at Antioch Lake

### Find Water Depths of 15 Feet; Lake Popular With Children

Growing popularity of Antioch lake as a place for fishing, boating and swimming, and the attendant danger of drowning, today drew a warning from members of the Antioch Rescue squad who pointed out the hazards of misjudging the depth of water over what was formerly dry land.

Squadmen who measured the lake this week reported finding depths of from 10 to 15 feet in many spots in the lake. Before the building of the dam several years ago, hunters walked over the slough land and children played on the ground which now forms the bed of the man-made lake. Many believe the water to be shallow all over the lake, but this is not true, as the Rescue squad points out. Especially hazardous is the deep water in the immediate vicinity of the dam where small children may fall into the water.

## MRS. MCGREAL DIES AT HER HOME HERE

### Resident of Community for 65 Years; Seven Children Survive

Mrs. Rebecca McGreal, 85, widow of the late Thomas E. McGreal, and a resident of Antioch for the past 15 years, died Friday morning at her home at 1025 Main street.

Born in Straffordshire, England, January 1, 1858, Mrs. McGreal came to America 65 years ago. For over half a century she lived on the farm homestead in Bristol township in Kenosha county. She moved to Antioch in 1928.

Mrs. McGreal was actively interested in civic affairs during her entire life. Even at her advanced age she was able to take part in the Memorial day services here on May 30. She was a member of the local Legion Auxiliary, and the Antioch Royal Neighbor lodge, and was an honorary member of the Antioch Woman's club.

She is survived by four daughters and three sons: Mrs. Frederick Haun, Kenosha; Mrs. Henry Rienke, Waukegan; Mrs. E. C. Quincy, Walnut Creek, Calif.; Mrs. W. C. Eldridge, Carey, Idaho; Arthur and Jack, of Antioch; and Thomas E. McGreal, Waukegan. She also leaves a brother, Fred T. Phillips, Carey, Idaho; 12 grandchildren; two great grandchildren; two nieces, Mrs. Maud Brogan Hurligen, and Miss Mabel Brogan; and two nephews, Richard and Frank Brogan.

Funeral services were held from the home and St. Peter's church Monday at 9 a. m. with the Rev. Fr. Flaherty officiating. Burial was in Mt. Carmel cemetery, Antioch.

## Fred Stahmer Wins Antioch Recreation Classic Sweepstake

Fred Stahmer was first place winner in the Classic Sweepstake rolled at the Antioch Recreation last Thursday, June 3. Fred shot games of 180-219-165-177-196-189 on the six game route for a total of 1126, winning \$33.00. In second place with a total of 1112 was Ed Carney. Ed had games of 200-148-223-174-190-177. Second place money amounted to \$24.00. Fourteen dollars third place money was won by Ed Walters on a series of 1095. Louis Bauer, manager of the Recreation took fourth money of \$9.00 on a 1070 series. Henry Pape was winner of the \$5.00 award for high game out of the money. Henry's high game was 223.

The score sheet shows that of 102 lines rolled in the tourney, 16 were under 140, thirty were under 150 and only nine 200 games were rolled. Hank Pape's 223 was the highest game rolled. Entrants laid the mediocre scores to the weather, and the new pins used.

Although this tourney ends the year's schedule of events at the local alleys, Manager Lou Bauer announces that the alleys will give weekly prizes of \$4.00 and \$2.00 to the bowlers scoring the highest three-game series during each week, Saturday and Sunday excluded. There is no entry fee to qualify for these prizes and games may be bowled on any alley at any time. A two-thirds handicap basis will be used in determining winners.

## AUTO USE STAMPS AVAILABLE TODAY

Collector of Internal Revenue Carter H. Harrison announced today that auto use tax stamps in the denomination of \$5.00 are on sale in all post offices and offices of Collectors of Internal Revenue. The stamps will evidence payment of the tax for the fiscal year beginning July 1, 1943, and must be purchased on or before that date. The stamps will be serially numbered, will be gummed on the face, and will have provision on the back for entry of the make, model, serial number and State license number of the vehicle.

Every owner of a motor vehicle which is used upon the highways should call at his local postoffice or at the office of the Internal Revenue Collector and secure a \$5.00 use tax stamp and affix it to his vehicle on or before July 1, 1943, the Collector said. The various postoffices will sell the stamps over the counter for cash only and no mail order business with respect thereto will be conducted by the postoffices.

## Summer Recreation Schedule Announced

### Miss Eleanor Forster Will Be Playground Director for Juveniles

Sponsored by the Grade School Parent-Teacher association, Antioch's summer recreation program for grade school children will get under way here Monday morning, June 14, with Miss Eleanor Forster, of Trevor, as playground director. The program is to run five days a week for a period of six weeks, closing on July 30.

Miss Forster, of LaCrosse Teachers college, has been taking a course in physical education, and has been giving especial attention to recreation projects for juveniles.

The program here this year is financed by donations from various local organizations, including the Antioch Lions club, the Woman's club of Antioch, the Antioch Legion Auxiliary and the Parent-Teachers association.

**Schedule**  
Monday—Play games  
Tuesday—Clubs, (sewing, dramatics, collecting, etc.)  
Wednesday—Games  
Thursday—Handicraft  
Friday—Tournaments

**Divisions and Time Schedule**  
Cubs—9 years:  
Boys—9:00 - 9:45  
Girls—9:45 - 10:30  
Juniors—10-11 years:  
Girls—10:30 - 11:15  
Boys—11:15 - 12:00  
Seniors—12 and over:  
Boys—1:00 - 2:30  
Girls—2:30 - 4:00

## Magic?

No, Friends, there's no Magic about it...

CLASSIFIED ADS in the Antioch News do get results.

Here's how—

FOR SALE—Ford 2-door car, new tires.

(Car was sold the next day after ad appeared)

FOR SALE—18-in. lawn mower, in good condition.

(Lawn mower sold evening of the day of publication).

If there is demand for the article advertised and your offer is reasonable, then there's nothing to it. You can sell it through advertising in the Antioch News.

## Charles Martin, 86, Dies in Chicago; Lived at Cross Lake

### Wealthy Manufacturer and Inventor Succumbs at Mercy Hospital

Funeral services for Charles W. Martin, 86, were held at 2 p. m. today in the chapel at 5501 N. Ashland avenue, Chicago. Interment was in Forest Home cemetery. His death occurred Monday in Mercy hospital following an illness of three days.

Mr. Martin, a familiar figure in this community, where he has had his home on the shore of Cross Lake for the past 27 years, was president of Martin & Co., rubber stamp manufacturer at 227 W. Madison st. He was the inventor of several marking devices that were manufactured in the company's plant. When not at his farm home here, he lived at the Illinois Athletic club in Chicago.

He started life as a village blacksmith's helper in Paris, Ohio, his birthplace, and was successively a farm hand, railroad brakeman, fish and oyster man, restaurateur, and a rubber stamp salesman before he founded the firm in Chicago in 1882. He was one of Chicago's first Rotarians. He was a member of the Ashlar lodge, 308, A. F. & A. M.; Washington Chapter 43, R. A. M.; Chicago Commandery 19 K. T.; and Oriental Consistory and Medinah Shrine where he acquired membership when in his 81st year.

Mr. Martin, who was unmarried, was the brother of Alvin W. Martin, Iola E. Salmon, and the late Edward S. Martin and Mary A. Worthington, uncle of John Martin and Elvin E. Salmon.

Known widely for his interest in antiques, Mr. Martin gathered rare collections of furniture, bric-a-brac, buttons and many curios of other years.

He was one of the last in this area to use natural ice for refrigeration, and his annual "ice harvest" at Cross Lake was indeed an event. Besides paying the men well for their services he always served a turkey dinner in his spacious home for the workers, all of whom were his friends and neighbors.

## REP. KELSEY'S BILL WOULD AID STOCKMEN

Enacted into law by the Illinois General Assembly last Thursday, House Bill 439, introduced by Rep. Harold D. Kelsey of the 8th dist., provides extra service for farmers and stockmen in counties having a veterinarian. The law now provides that a county which has a county veterinarian will receive \$25 a month more from the state toward the salary of that respective veterinarian. All three counties of the 8th district have county veterinarians.

## Graduated With Honors at Rollins College

Graduated with honors at the commencement exercises at Rollins College, Winter Park, Fla., June 3, Miss Joan Yvonne Jensen, daughter of Dr. and Mrs. G. W. Jensen of Antioch, was initiated into the order of Libera, the highest honor awarded to women at the college. She majored in psychology.

Attending the graduating exercises from Chicago was Miss Rosemary Baessler, Miss Jensen's former classmate at Northwestern University.

Selected as a member of the staff at the Neuro-Psychiatric Institute at Hartford, Conn., Miss Jensen will take up her duties there late in August after spending the summer here at the home of her parents.

**Two Graduate at Northwestern**  
Among the 1,200 students who will be candidates for degrees at Northwestern university's 85th commencement to be held Wednesday, June 16, are two from Antioch vicinity. They are: Everett Anton Girtler, Bachelor of Science in Commerce; and Mary Catherine Vanderkloot, Bachelor of Science in Education.

Secretary of the Navy Frank Knox will deliver the commencement address.

Ninety-six cents out of every dollar goes for War expenditures. The other four cents goes for Government expenses "as usual."

## STILL FISHING

## News of the Boys in Service

### Foto Boys Who Will Enter Military Service

Several Antioch boys who are now in military service and others who will soon enter the army or navy, were guests Tuesday night at a dinner given in their honor at Henning Johnson's Deep Lake resort.

A fine chicken dinner was served to the 75 or more persons who attended, and entertainment was provided by Frank West, entertainer and vocalist who played his own accordion accompaniment for old and new songs. The guests joined in the songs.

Among the "vets" present were Staff Sgt. Lester Perry, who served for eight months in the South Pacific; Louis Koppen, USN, electrician's mate, ten months in Hawaii and South Pacific; and Len Schaffner, U. S. Army, baker, who was recently transferred from River Rouge Park, Mich., to Fort Sheridan.

The following boys who will enter service were introduced by Frank Kennedy: Russell Barthel, Jim Harvey, Irving Walsh, Ray Baethke, Jack Flanagan, Jr., and Harry Willett.

**Barthel, Friend of Service Men**  
Barthel last week turned over the management of his service station here to Mr. Kennedy for the duration of the war. Russ' service station has been a kind of clearing house for the boys in service ever since the first man was inducted into service. He carried on an extensive correspondence with men all over the world, and Barthel Bros. station was the first haven of the boys home on furlough. He even was banker for many who sent home their pay, as money was useless to the boys in some parts of the world. Thus, Russ has really been in service long before he dons a uniform.

### MORALE BUILDER, SAYS WAAC

Dear Sirs:  
This is my first letter to the Antioch News, so it is quite hard to know just what to say. I really want you to know that sending the Antioch News is one of the best morale boosters I have had. It gives you pleasure in reading what is going on at home.

Here is a bit of news. I met Mary Jane Tinker, Aux., here in Florida two days ago. She was sleeping two tents from me. Today she was sent to Camp Blanding, Florida. She is in the motor corps.

Florida is a lovely state, and I have seen many lovely scenes here, but take me back to good old Antioch. It's big enough for me.

I have finished my basic and am now awaiting more orders. Thanking you with all my heart for sending the paper.

Respectfully,  
Aux. Elsie H. Malget.

Second WAAC Training Center  
Daytona Beach, Florida

### PVT. COLLINS MEETS FRIEND IN N-CAROLINA

Just a few lines to let you know my change of address. I have been receiving the paper for the last four months and I really enjoy it very much. I have finished by basic training and now will find more time

## Township Will Test New Raid Sirens Tuesday

### Wardens and Fire Watchers Will Try Out New Alarm System

Testing of three new sirens to be installed by Antioch Township Civilian Defense committee will take place Tuesday night between the hours of 7 and 9, Commander Roman Vos announced today.

The sirens which were requisitioned by Supervisor William A. Rosling have arrived and have been turned over to the committee.

With wardens and fire-watchers co-operating the sirens will be placed at different locations throughout the township in an effort to locate the best warning centers. Thus, citizens far removed from Antioch may hear the smaller sirens. The new sirens may be plugged into any electric 110 or 220 voltage the same as any electrically operated machine, Rosling said.

### Start Warden School Tonight

The school for air raid wardens and fire-watchers will get under way tonight at the Lake Villa Grade school at 8 o'clock. County Defense Coordinator Paul King will be present to effect the organization at the initial meeting which will then be turned over to William Sheehan, group leader, of Mundelein, who has a staff of instructors, including Fred J. Berg, William Banedit, and Commander Vos of Antioch, as well as other qualified instructors from the Mundelein area.

About thirty, including some women, are expected to attend from Antioch. The following Thursday, June 17, the school will hold its session in the Antioch High School gym, and thereafter the classes will alternate between Lake Villa and Antioch until the course is completed.

## HOLD SERVICES HERE FOR JOHN J. DOYLE

### Retired Lieut. Chicago Fire Department Dies in Hospital

John J. Doyle, 65, retired lieutenant of the Chicago Fire department, and a resident of Antioch for the last 15 years, died Saturday in a Chicago hospital after a brief illness. The body was brought to Antioch and the funeral services were held here Tuesday at St. Peter's church with burial in Mt. Carmel cemetery. Officiating at the services were the Rev. Fr. Flaherty, celebrant, Fr. Mizek of Maywood, deacon, and Fr. Carlton, sub-deacon.

Since his retirement 15 years ago, Mr. Doyle had lived at Ken-Doyle, the family home at Channel lake. He was a member of St. Peter's church and was ex-president of the Holy Name society. For several years he was church sexton.

He is survived by his wife, Katherine, and four children: Sister Mary Danette, B. V. M., Maywood; Donald Doyle, Chicago; Dudley Kennedy, Antioch; and Sgt. Eugene E. Doyle, Panama Canal zone.

## CROW CLUB SHOOT SET FOR JUNE 19

With the co-operation of the State Department of Conservation, of which Livingston E. Osborne of Barrington is director, and with the sponsorship of the Winnetka Chapter of the Izaak Walton League of America, the Third Annual Lake County Crow Club hunt will be held from daybreak to dark on Saturday, June 19.

The hunters will gather at noon at the estate on the south side of Half Day road on the east bank of the Desplaines river, of Louis E. Leverone, president of the club, who is providing coffee and making available his outdoor grills for a picnic luncheon. J. Milton Coulter, secretary of the club, announces that hunting will be resumed at 1:00 p. m. During the noon hour he will be glad to make suggestions as to the use of the crow call, and will have extra calls available for those desiring to acquire them. Prospective hunters are urged to contact him at Central 7540, or in the evening at Winnetka 4166, as to grounds available for hunting purposes.

Last year's shoot was won by Albert Kristan of Libertyville, who received the State Department of Conservation's prize of 25 pheasants placed on land of his designation.

## Paper Scarce? Not for the New Dealers!

Recently the Antioch News received from Washington, D. C., an eight-page document purported to be "Remarks of Hon. Alben W. (Dear Alben) Barkley, of Kentucky, in the Senate of the United States." The title of "Dear Alben's" remarks was "A Decade of Achievement." Yes, you guessed it—the entire document is a laudation of Franklin D. Roosevelt, praising the New Deal for its "magnificent record." There is nothing constructive in the entire speech—unless it presumes to be a buildup for a fourth term. . . . Another waste of paper by New Deal agencies occurred early in March when congressional leaders charged that a new and most flagrant abuse of public trust had been perpetrated by the Office of War Information in the interests of a fourth term dictatorship for President Roosevelt. The congressional wrath was stirred up by a red-covered, 20-page pamphlet, "The Life of Franklin D. Roosevelt," published by the OWI and distributed overseas to American soldiers. A copy of the pamphlet was sent to Representative John Tabor of New York by a soldier in Africa who found it in his recreation hall. Rep. Tabor took the pamphlet to the congress. Taber said: "This is the most outrageous example of unadulterated political propaganda I have ever seen. It makes no effort to dissemble—it is the out and out bid for the millions upon millions of American

soldiers' support for a fourth term." Elmer Davis, head of the Office of War Information, listed the cost of 561,491 copies of the booklet as \$13,951.95. . . . Rep. Taber said he had information that the men who wear the uniform of the United States resent such a waste. They want the heads of government to devote their efforts to the winning of the war, rather than to go on thinking up propaganda and spending the people's money to promote a fourth term for Roosevelt.

\* \* \*

## The "Social Security" Myth

The New Deal owes its continuous tenure of the White House to the fact that it has appealed to one of the primal instincts of men—security—the goal that man always has sought and never attained. Yes, the New Deal was going to make everything rosy for the one-third of our population that was underfed, poorly housed and poorly clothed. "Social security" was supposed to do all that. The American system thus far, under the guiding hand of the President's uncle, the 80-year old Fred Delano, has provided what appears to be a pittance of \$22.94 a month average payments for old age benefits, and \$13 a week for unemployment insurance. The two funds in the treasury have collected \$7,000,000,000 more to date than they have paid out, but the seven billion can not properly be called a fund, since the money has been spent on regular government running expenses. . . . Even during the worst years of the depression there was never a time when more than one-fifth of the workers were out of jobs. Workers, if given the chance can make better provisions for their old age than the government offers them with only \$22.94 a month to live on. Can that be "the more abundant life" the New Deal raved about some years ago? Don't be deceived. "Social security" under the present set-up is a sly method of collecting more taxes, and it may also lure votes from those loafers who would rather collect the government pittance than to work.

## WILMOT

## Re-organize Wilmot Blue Ribbon 4-H

Holding their regular meeting and annual election of officers, members of the Wilmot Blue Ribbon 4-H club, under the direction and leadership of M. M. Schnurr, named Mary Lou Scott president for the coming year.

Other officers of the club are Jerry Bernhoft, vice president; Mary Seitz, secretary; Joan Schnurr, treasurer; and Richard Carey, reporter. Other members of the club include John Schnurr, William Schnurr, Joan Pacey, Joyce Stoen, Arlene Scott and Elmer Stenzel.

The next meeting of the club will be held on Thursday evening, June 24, at the Fox River County Park. The meeting will start at 8 p. m.

Miss Madeline Friedhoff, Kenosha, spent the week-end at the home of Mr. and Mrs. Herman Frank. Little Beverly Frank is spending a few days with her grandmother, Mrs. Bertha Harm.

A family reunion was held at the home of Mrs. Bertha Harm on Sunday honoring Mr. and Mrs. Frank McConnell, Jr., and their son, Frank III, who are here from Minneapolis, Minn., for a two weeks visit. Those attending were Mr. and Mrs. Earl Harm and son, Billy of Spring Grove, Mrs. Flavia Ehlert and children, Mr. and Mrs. Herman Frank and children, and Herman Ehlert of Wilmot, Mr. and Mrs. Melvin Harm and daughter, Darlene of Richmond, Mr. and Mrs. Rodelle Harm and son, Mr. and Mrs. Albert Miller and son of Spring Grove, Mr. and Mrs. Peter Stockert of Bristol, Miss Madeline Friedhoff and Mr. and Mrs. Oliver Balza and family of Kenosha.

Mr. and Mrs. Wayne Tilton and children of Burlington spent the week-end at the home of Mrs. Viola Sherman.

Frank Kruckman left for the Mayo clinic on Saturday and is staying at the Hotel Rathbone with Mr. and Mrs. Earl Hyde, relatives from Crystal Lake. David Kimball is taking care of the store until the return of Mr. Kruckman from Rochester.

Gust Neuman and daughters, Virginia and Doris, attended a birthday party on Mrs. Ben Elferman held at her home at Lily Lake Sunday evening.

Mr. and Mrs. Ray Buton have purchased the J. L. Freeman home which was the former Duesing estate, and are moving here from the Hyde farm this week. Mr. and Mrs. Freeman will continue to live in Wilmot during the summer months.

Mrs. Viola Sherman and son, Roger, attended the graduation of Miss Lorraine Lent at Genoa City on Friday night.

Mr. and Mrs. Elmer Rasch and children spent Sunday with Mrs. L. E. Sweet at Richmond.

Miss Grace Carey returned home from the Mayo clinic at Rochester Sunday evening.

Donald Johnson spent the week-end with his mother, Mrs. J. Johnson. He returned to Chicago Sunday night where he has five weeks of study before he completes his course in the U. S. Signal Corps school.

Mr. and Mrs. Glenn Ober and son of Woodstock were Sunday dinner guests at the home of Mr. and Mrs. Herbert Sarbacher.

The McGuire family of Chicago spent a few days at their Wilmot home the end of last week.

S 2/c Lawrence Bauman returned to the Great Lakes Naval training station on Thursday after a furlough of several days spent at the home of Mr. and Mrs. George Higgins.

Mrs. Gust Neuman spent Sunday and Monday with Mrs. Gust Neuman, Sr., at Fox River. On Sunday Gust Neuman and daughters, Doris and Virginia, were dinner guests at the home of his mother.

Mr. and Mrs. Fred Martin of Fort Dearborn, Mich., spent Saturday evening at the home of Mrs. Bertha Harm.

## MILLBURN

Twenty-five young people of the C. E. Society attended the business meeting and social held at the home of Carol Ruth Upton Friday evening.

Mrs. Roland Crippen of Alpena, S. Dak., spent the past week with her cousin, Mrs. Horace Culver, and other Bonner relatives at Millburn.

Mr. and Mrs. Roy Bonner announce the arrival of a son, William Aubrey, at Victory Memorial hospital on June 5.

Misses Alice Leng of Lake Villa and Doris Wagner of Long Lake spent the week-end with Miss Alice Denman.

Mrs. L. H. Messersmith accompanied her husband to Chicago for this week, where he is finishing this quarter of work at Chicago Theological Seminary.

Mrs. Horace Culver and her guest, Mrs. Roland Crippen, spent Saturday with the former's daughter, Mrs. Chalmers Wooley, in Joliet.

Frank Hauser is a medical patient at St. Therese hospital.

Mr. and Mrs. Robert Donner and son, Jim, of Kansasville, Wis., spent Monday at the Gordon Bonner home.

Mr. and Mrs. L. H. Kamfer of River Forest called at the J. S. Denman home Monday.

Burial services for Mrs. Margaret Thorn of Gurnee were held in Millburn cemetery Wednesday afternoon.

## Rayon Goes to War

In addition to paying natives with rayon cloth for services rendered the army, rayon contributes to war work in at least 11 other ways. It is used for flare chutes, aerial cargo delivery chutes, fragmentation bomb chutes, aerial tow targets, parachute shroud cords and tapes, tire fabric, self-sealing gasoline tanks and feed lines, army insignia, water-repellent cloths for plane motors, electric wire insulation, and officers' uniform linings.

## Rabbit Production

Meat rabbits average 8 or 9 pounds when full grown. A female can reproduce on the average 15 to 20 offspring each year, or three females would produce all the rabbit meat the average family would want.

## Shop Smartly

Many families take advantage of low prices of fruits and vegetables during the peak of supply, and do their own storing, canning or freezing for future use.

## HOSPITAL POLICY

FAMILY GROUP BASIS  
Also for Individuals

UNUSUAL - BROAD - AND COMPLETE

Assures hospital care for Husband - Wife - Children  
\$5 a day \$4 a day \$3 a day  
Provides Hospital Care for as long as 120 days . . . not limited to any one year.

## Surgical Combination

For only a small additional amount your family group plan can be broadened to pay BOTH hospitalization and surgical operation expense.

## Incontestable Protection

All chance of misunderstanding has been eliminated. A SPECIAL protection incontestable after policy has been in force two years.

## USO Information Center

Statistics released by USO national headquarters placed total information services of the USO last year at 6,712,000. Requests for information on housing, of which there were 1,404,500, represent one-fifth of all queries, the figures show. Information on employment, travel, community resources and location of persons are among the other types of requests received in 1,400 USO clubs and centers.

## Producing FOOD FOR VICTORY on the Farms of Northern Illinois

More meat is America's urgent wartime need. To help farmers of Northern Illinois fill the higher beef quotas set by Uncle Sam, the powerful energy of electricity is on the job.

## ELECTRICITY LENDS A HAND IN MEETING THE 7% INCREASED BEEF QUOTA

Working with a determination to ease the nation's wartime meat shortage, the farmers of this area confidently rely on the help of electricity.

This mighty source of energy pumps and heats the water . . . lights the farm yard, grinds the

feed and ventilates the feed barns. It runs the feed hoist, grain elevator and countless other labor-savers.

Yes, in these strenuous days on the farm, electricity is the indispensable extra hand . . . the energy that makes increased production possible.

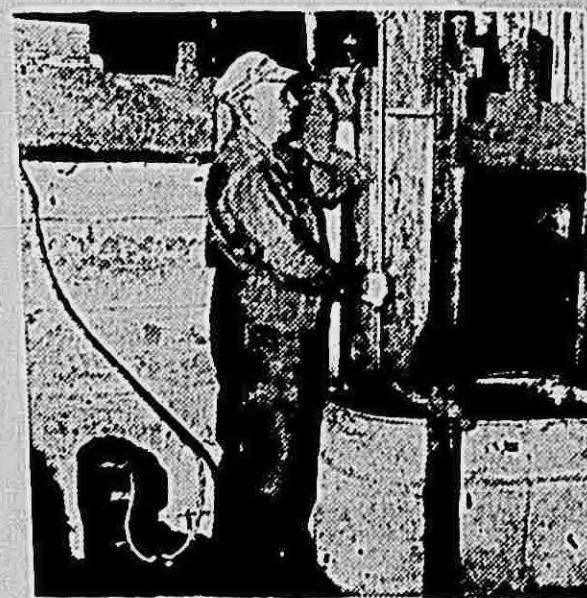

(Above) Feed for cattle means food for victory. Grinding the feed is a routine chore of electricity on many farms in this area.

(Left) Automatic water tank is what this farmer contrived. By means of a float the electric water pump is turned on and off to maintain the water level in the drinking tank.

Homemade ventilating fan made from an old automobile fan by this electrically-minded farmer. The ventilating fan circulates the air which freshens the feed barn.

## Agnes Techert Becomes Bride of Charles H. Ferris

The Rev. W. A. MacArthur performed the ceremony on June 5 at two o'clock at the Lake Villa Methodist church, when Miss Agnes Techert became the bride of Charles H. Ferris. She is the daughter of Mr. and Mrs. August Techert, Lake street, and he is the son of Mr. and Mrs. Paul M. Ferris of Lake Marie.

The bride wore white satin princess style with finger tip veil, from a tiara of seeded pearls. Her flowers were white roses, carnations and lilies of the valley. The bridesmaid, Miss Dorothy Ferris, sister of the groom, wore pastel green lace and net, and a blusher of net, and carried yellow roses and lilies of the valley. The best man was Russell McNeil of Grayslake.

The bride's mother wore brown with white accessories and the bridegroom's mother wore blue with light blue accessories, and their corsages were of red and white carnations.

Mrs. F. E. Encell, cousin of the bridegroom's mother, sang "O Promise Me" and "I Love You Truly," and also played the wedding march.

A reception was held for 150 guests at the Guild hall in Antioch.

Mr. and Mrs. Paul Ferris, parents of the bridegroom, were presented a beautiful cake in honor of their 30th wedding anniversary which was celebrated June 4th.

The bride is a graduate of the Antioch Township High school and has been employed at Abbott Laboratories, North Chicago. The bridegroom attended Lincoln Flying school at Lincoln, Neb., and is also a graduate of the Antioch Township High school. At present he is engaged in farming.

The couple went to Chicago for a week-end honeymoon, and then took up residence at Lake Marie on the Knollslea farm.

Out of town guests were Mr. and Mrs. T. E. Encell, Mrs. Nell Hazen, and son, Parker Hazen, Y 3/c U. S. N. R. of Oak Park, Ill., Mr. and Mrs. Harold Hazen of Highland Park, Mr. and Mrs. William Horton and daughter, Judy, Rock Island, Ill., Mr. and Mrs. Lyle Bolton, Kenosha, Wis., Alice Stover, Waukegan, Dorothy Sorenson, Helen Bobbitt, and Hugh A. Cotton of Waukegan.

### Guest Officers to Serve at O. E. S. Meeting Friday

Worthy Matrons and Worthy Patrons night will be observed Friday evening at Antioch chapter O. E. S. No. 428, at the Masonic hall. All stations will be filled by Worthy matrons and Worthy Patrons of Wisconsin and Illinois chapters. Miss Eva Palmer, Sorosis chapter, Grayslake, and Harry Ehorn, Richmond chapter will serve in the east as worthy matron and worthy patron; serving in the west as associate matron and patron are Ellen Blenheim of Highland Park and Reginald Palmer of Grayslake; Edna Johnson, Deerfield, chaplain; conductress and associate conductress, Myrtle Anderson of Lake Forest and Harriet Mathews of Libertyville; treasurer, E. H. Pryor of Wauconda; John Russell, Waukegan, secretary; Philip Anderson, Millburn, marshal; Genevieve Austin, North Chicago, Adah; Mary Pryor, Wauconda, Ruth; Eunice Woodbury, Bristol, Martha; Hazel O'Neil, Waukegan, Electa; E. Loth, Wilmet, Esther; Perry L. Austin, North Chicago, warden; Walter Lighthody, Libertyville, sentinel. Louise Tanner of Millburn chapter will be guest of honor and Mrs. Rose Margroff of Grayslake, soloist.

Luncheon will be served in the dining room following the meeting.

### MR. AND MRS. PETER ZALATORIS OBSERVE 29TH ANNIVERSARY

Celebrating their 29th wedding anniversary at their home at Lake Marie, Mr. and Mrs. Peter Zalatoris spent the day working in their Victory garden and writing letters to their children.

Their daughter, Genevieve, was married last February to Lt. George Cermak, in Texas. The Lieutenant is now pilot instructor at Barksdale Field, La. His wife is with him. Their son, Edward, was married recently to Mabel Einfeldt, daughter of Mr. and Mrs. Henry Einfeldt, of Einfeldt Grove; and another son, William, was inducted into the army air corps on May 26, and is now stationed at Jefferson Barracks, Mo.

### O. E. S. OFFICERS CLUB HOLDS MEETING FRIDAY

Mrs. Joseph Horton entertained the members of the Order Eastern Star Officers club, at her home Friday evening. Following the business session cards were played, and a delicious luncheon served.

Mr. and Mrs. E. W. Edwards left Antioch a few days ago and are spending the summer in Cowden, Ill., where Mr. Edwards is engaged in farming.

### CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 6.

The Golden Text was, "Whatsoever God doeth, it shall be forever; nothing can be put to it, nor anything taken from it" (Ecclesiastes 3:14).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thus saith God the Lord, he that created the heavens, and stretched them out; he that spread forth the earth, and that which cometh out of it; he that giveth breath unto the people upon it, and spirit to them that walk therein: I am the Lord: that is my name; and my glory will I not give to another, neither my praise to graven images" (Isaiah 42:5, 8).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There is but one creator and one creation. This creation consists of the unfolding of spiritual ideas and their identities, which are embraced in the infinite Mind and forever reflected. These ideas range from the infinitesimal to infinity, and the highest ideas are the sons and daughters of God" (p. 502).

### CONGREGATIONAL CHURCH

### CHILDREN'S DAY

At the Methodist church in Antioch

next Sunday, June 13, the Children's

Day program of the Church School

and the worship hour of the church

will be combined. The program will

include music by the choir, programs

prepared by the departments of the

Church School, a playlet entitled

"Our Father's Letters," a Children's

Day offering, and a brief address by

the pastor. The combined service will

begin at 10:30 A. M. and continue

through the regular worship hour.

This is the one day of the year on

which particular recognition is given

to the children. Parents of those in

our Church School should be present

as an encouragement to the children,

and as a recognition of the work being

done by their teachers. The gen-

## PRAYER IS THE KEY TO VICTORY, SAYS CHRISTIAN SCIENCE

Boston, Mass., June 7.—The Christian Science Board of Directors today placed "prayer" at the top of the list of defensive and offensive weapons that free-thinking peoples are counting upon to win the global war against oppression and suppression.

In a statement of the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, the Directors first emphasized the word "prayer," then followed with the term "miracle of deliverance" which is to be accepted, they said, as the logical answer to righteous prayer.

Thus, deliverance from the hand of the oppressor was seen by the Directors to be no miracle at all, but rather a simple witnessing to the fact that power springs from the prayer of understanding.

"A praying people can never suffer defeat," summarized the Directors' remarks to several thousand Christian Scientists assembled in The Mother Church.

"Battles are not won," the Directors said, "through trust alone, but through intelligent, scientific preparation and skillful execution. As we reach out to God through understanding prayer, the human footsteps to bring our deliverance from this cruel warfare and all evil will be revealed."

"Christian Science teaches," the statement continued, "that this is an hour of miracles. In the Christian Science textbook, 'Science and Health with Key to the Scriptures' (p. 591), the following definition of miracle is given: 'That which is divinely natural, but must be learned humanly.' So it is divinely natural to expect and witness the answer to righteous prayer. The miracle does not come through wishful thinking, however, but through the preparation of the heart, through steadfast, radical reliance on God."

The Directors also announced the election of Mrs. Daisette D. S. McKenzie of Cambridge, Massachusetts, as President of the Mother Church for the ensuing year, succeeding Mrs. Elisabeth F. Norwood, of Brookline, Massachusetts.

The new President first became interested in Christian Science in 1887 during the very early days of the movement. Hence, Mrs. McKenzie became instrumental in the pioneering of this religion in the city of Cleveland.

Other reports revealed a continuing advance of religious education despite the exigencies of war. The Christian Science Board of Lectureship found that the purpose of its new regional system of allocating lecturers to serve the churches more acceptably and to reduce the need for travel has been fulfilled in gratifying measure. Where lecturers have not been able to appear personally in some countries because of war, authorized lectures have been read to the audiences, it was said.

From the Trustees under the Will of Mary Baker Eddy came the report that since the year 1913, when the Trustees were first appointed, they have expended \$6,400,000 on church work. Announcement was also made that the sales of Mrs. Eddy's works, including "Science and Health with Key to the Scriptures," had more than doubled in the last two years.

eral public, especially the summer population around the lakes, is most heartily invited. Remember the time and place—10:30 A. M. at the Methodist Church in Antioch.

Warren C. Henslee, Minister.

### 4-H CLUB GIRLS HOLD MEETING WEDNESDAY

A regular meeting of the 4-H club was held at the home of their leader, Miss Linda Buschman, Wednesday afternoon. The newly elected officers in charge were: Miss Mabel Lou Hunter, president; Doris Burdick, vice president; Ruby Drom, secretary and treasurer; June Hunter, recreation chairman, and Alice Kacer, reporter. Betty Bauer gave the lesson on contrasting colors and Jane Hunter gave a talk on different types of material and certain types of people. Alice Kacer gave a demonstration on two types of buttonholes. The remaining part of the afternoon was spent in working on their different projects. The girls decided to have their meetings at the homes of members.

### WENDELL NELSON INFANT CHRISTENED SUNDAY

The infant son of Mr. and Mrs. Wendell Nelson of Antioch was baptized Craig Boyer Nelson by the Rev. Bruce Gillis at the morning worship at the First Presbyterian church in Woodstock on Sunday.

Serving as godmother and godfather were Miss Grace Ackerman of Woodstock and Roger Williams of Antioch. Present for the occasion were the maternal grandparents, Mr. and Mrs. Roy Wrigley of Woodstock, also the paternal grandparents, Mr. and Mrs. S. Boyer Nelson of Antioch. Following the service the Wrigleys were hosts to their guests at dinner.

### LEGION AUXILIARY MEETS AT HARDEN HOME

The June meeting of the Antioch Legion Auxiliary was held Friday night at the home of Mrs. Frank Harden, with Mrs. Lydia Edwards, Mrs. Maud Johnson and Mrs. Marie Scott as co-hostesses. Following the brief business session the group played five hundred with prizes going to Mrs. Eva Burnette, Mrs. Ann Heath, Mrs. Olive Tweed, and Mrs. Nellie Brogan.

The card party held in May met with such splendid response that the Auxiliary voted to sponsor a similar party on June 14 at Legion hall.

### MR. AND MRS. WILTON PARENTS OF DAUGHTER

Mr. and Mrs. Robert Wilton are the parents of a baby daughter, "Mary Sue," born Saturday, June 5, at Victory Memorial hospital, Waukegan.

Week-end guests at the home of Mr. and Mrs. G. W. Jensen will be Mrs. Jensen's parents, Mr. and Mrs. W. A. Boudro of Chicago, and her brother, Captain William I. Boudro, U. S. Army, who is now on furlough. Following his leave of absence he will be stationed at a central Illinois camp.

Charles Phillip (Tod) Mapletorpe, son of Mr. and Mrs. Arthur Mapletorpe, left Tuesday for Lake Forest where he will take a course in physics, mathematics and English as a preparatory course for officers' training in the U. S. Army.

### Card of Thanks

We wish to extend our thanks and appreciation to friends and neighbors for their many acts of kindness during our recent bereavement.

The McGreal Family.

### Card of Thanks

We wish to thank relatives and friends for the many acts of kindness and sympathy shown us during our recent bereavement, in the loss of our father and husband.

## News of the Boys...

(continued from page 1)

the Antioch men to wear the medal of Marksman, they fired for record from four positions, standing, sitting, kneeling, and prone. Half of the record shooting was done at slow fire, half at rapid fire.

Pvt. Hunt is the son of Mr. and Mrs. Frank Hunt. In civilian life he was employed by the R. & J. Chevrolet company. Pfc. Homan is the son of Mr. and Mrs. Henry Homan of Channel Lake, and he also worked at the R. & J. company garage. T/5 Bauman, son of Mr. and Mrs. Charles Schultz, worked at Johns-Manville plant before entering military service.

All three of the boys attended the Antioch Township High school.

—V—

Dear Sirs:  
Again I am taking opportunity while informing you of my change of address to tell you that I really appreciate receiving the Antioch News. I am now in Classification Center here at San Antonio and hope to be classified within the next week as a pilot, bombardier, or navigator.

While at Carroll College in Waukegan, Wis., I received ten hours of flying and now I'm hoping to be classified as a pilot. From here I'll start my pre-flight training as soon as some schools open up. I'll be here for about four or five weeks, and when I get shipped I will drop you another line.

Av/S Robert H. Pedersen

San Antonio, Texas

—V—

Elizabeth Corrin, 2nd Lt. WAAC, Fort Devens, Mass., says in a letter that she enjoys receiving the Antioch News each week.

—V—

New names on the Antioch News mailing list are: Winsor Dalgard, av/c; Pvt. Arthur Hawkins; Pvt. Frank E. Kennedy; Pvt. Robt. G. Phillips, ASN; Pvt. Bennie G. Peterson; Willard W. Schneider, 2M 2/c; Pvt. George Sterbenz.

—V—

Rodney Jacobs, M. M. 1st class, a diesel engineer with Uncle Sam's navy, enjoyed a few days in Antioch last week during his furlough. Rodney was wearing the service bar indicating service in the American theatre of war. He has been on convoy duty with a subchaser.

## Antioch High School Teachers Leave for Summer Activities

What does a school teacher do in summer?

Members of the Antioch Township High school faculty will be far from idle, as they have mapped out quite a comprehensive program of activities to which they will devote their time and talents during the months ahead that are usually regarded as vacation time.

Miss Donna Culleton, librarian and English teacher, will spend the summer at her home in Valley City, N. Dak., where she will be employed in her father's grocery and market.

Hans Von Holwede, director of music at both the high school and grade school, will remain at his home in Antioch, dividing his time between giving music lessons and his victory garden.

Mrs. F. H. Martin, biology teacher, will spend most of the summer in her home in Libertyville, but will have a brief vacation at her cottage at Cholevo, Michigan.

Albert Kroll, coach and science teacher, will spend the summer months at his home in Libertyville and will do a bit of fishing and hunting in northern Michigan.

Mrs. Marjory Thomas, science and math., will keep house for her husband, the Rev. Robt. Thomas, in Gurnee. In July they will enjoy a trip to the Ozarks.

Miss Mildred Kruca, commercial, will spend part of the summer at Little Rock, Ark., and the remaining weeks at the home of her parents in Naples, Ill.

E. W. Edwards, asst. principal, takes on a real job of farming when he and Mrs. Edwards go to her parents' farm home near Cowden, Ill.

Miss Adele Miller, secretary, will work through June and August. She plans to have a brief vacation in July. C. L. Kutil, director of vocational agriculture, will spend a week at the University of Illinois at the teachers conference and will then take an intensive course in agriculture.

Miss Ethel Dixon, home ec., will remain at her home in Gurnee.

Miss Evelyn Patterson, English and History, after making a trip to Washington will return to Evanston where she expects to find employment in a defense plant.

Miss Shirley Reynolds will spend the summer at her home in Dell Rapids, S. Dak., and will attend the physical education institute which is to be held there in July.

Principal T. R. Birkhead will spend three days a week attending the University of Chicago completing work for his doctor's degree. Between times he will supervise the new decorating to be done at the school. Spare time will be devoted to his Victory garden and to fishing.

Poultry raising will claim the attention of M. M. Stillson, manual arts teacher. He has a flock of 1,000 chicks already on the way.

Mrs. Kass (Dorothy Lyne) returned to Madison, Wis., her former home. She will not return to Antioch next year.

## Remember the Kid Next Door?

(Captain Genevieve Richards of the Floramund Chapter of the Women's Defense Corps of America (chapter named after Floramund Fellmuth, Chicago nurse decorated for bravery in the Philippines) has used the following in her War Bond sales talk so successfully that she reports sales for her chapter of about \$5,000,000.)

He used to hang around when you were polishing the car or cutting the lawn. You kidded with him like you did all small boys, and he liked it and handed it back to you the best he could. His dad and yourself taught him how to throw a baseball and box a little with a pair of cheap gloves you bought him. He thought you were quite a guy.

Then you quit seeing so much of him, he didn't come over to the house like he used to and pore over your magazines—you saw him in the family car one day with a cute little high school girl—then you grinned and understood why he didn't have much time for you. Remember how you poured it into him the next time you saw him—he was still enough of a puppy to like it and did everything but wiggle the way a puppy would.

You didn't figure him very seriously in this war thing—probably didn't even know how old he was, but one day his dad told you that he was called up and was reporting within a few days. You didn't take this war business very seriously either—a year in the army wouldn't do him any harm, so you dished it out a little more. But you couldn't make the kidding quite real this time—you could see he was a little scared and bewildered—but he understood and grinned back.

Now you know—don't you? The kidding is all over. He's somewhere, some place—not a boy any longer, but a man. Danger—sure he's in danger—the business he's in isn't a good insurance risk. He can't take care of himself—if you back him up. He can't tear a tank apart with his hands; he can't knock an airplane out of the sky with rocks—he needs tanks and more tanks; airplanes and more airplanes to do that job.

So buckle down neighbor—buy more War Bonds than you can afford—just like you used to buy a better car than you could afford. Remember—it's for the kid next door.

His Pigs Go to War

Young Johnny Clay of Rocky Mount, North Carolina, is typical of farm children raising victory pigs and devoting profits to War Bonds.

## Farm Youth of U. S. Looks to Tomorrow

TOMORROW'S farmers and farm homemakers are second to no school group in their enthusiasm for investing in War Bonds and Stamps to make sure their future is secure. Through the Schools At War program they are investing what they save and earn in War Stamps and Bonds.

First evidence of this is the amount the 4-H Club boys and girls and the FFA boys invested in war savings in 1942 from "Victory Pig" and other projects. A million and a half 4-H Club members put \$6,000,000 of their own savings in War Bonds and Stamps and sold \$2,500,000 worth of War Savings to their neighbors. Nearly a quarter million members of Future Farmers of America invested more than \$1,500,000.

Spurred by the realization that the financial welfare of farm families the next 20 years depends on how wisely they use today's higher incomes from increased food and other wartime production, both groups have set their goals still higher for 1943.

These farm youths are building financial reserves, and urging their parents to do the same, for after-the-war necessities, to meet financial emergencies and to help them get started in college.

They're building reserves today for tomorrow's farm buildings and for the other things they will need when they're tomorrow's farmers and homemakers.

## PETER'S COUNSEL TO SCATTERED CHRISTIANS

LESSON TEXT—1 Peter 1:1; 2:11-25.  
GOLDEN TEXT—Honor all men. Love the brotherhood. Fear God. Honor the king.—1 Peter 2:17.

Persecution for Christ's sake has been the lot of believers from the first century down to 1943. Sometimes it has been official, but more often unofficial, yet nonetheless severe and trying.

The manner in which Christians face their difficulties is one of the best testimonies to the reality of their professed faith. Sometimes, however, in the midst of their trials the enemy of their souls brings discouragement—and then they need the counsel and encouragement of others.

Such was the situation when Peter addressed his first epistle to the early believers who were scattered abroad (1:1). His counsel was just what they needed, and is equally helpful to us. They were to be

I. Separated As Pilgrims (1:1; 2:11, 12).

Christians are in this world but not of it. They are passing through, wayfarers on their way to the eternal dwelling place of God. That does not mean that they are not interested in the welfare of those round about them, or delinquent in sharing the responsibilities of life, but it does mean that they are to have the pilgrim's detachment from the things of the world and the flesh.

In the days of Peter, membership in the church was not considered a normal or respectable thing. It marked a person as belonging to a hated sect, one which was falsely accused of many evil deeds. For example, Christians met at night, men and women together for communion service. Because they spoke of this as a "love feast," they were accused of immorality, and because they spoke of the body and blood of Christ they were said to be eaters of human flesh.

Christians must meet such malicious reports. How? By silencing their accusers by their good works.

II. Submissive As Citizens (2:13-18).

One of the hallmarks of Christian character is willing and gracious recognition of proper authority, whether it be in the state, in the place of employment, in the school, or in the home. He does this for the Lord's sake (v. 13), and even when that authority is in the hands of an unreasonable man.

This does not mean that the Christian is to encourage or countenance tyranny and oppression, but that he is loyal to the state and to his employer, even though the present representative be a hard, unjust man. In all well ordered society there will be proper and effective means to correct injustice. But in and through it all the Christian shows his faith by his behavior.

Observe that government, in the plan of God, is for the purpose of keeping order, encouraging the good, and punishing the evil (vv. 13, 14). The powerful influence of the Christian Church should keep it in that right channel, or bring it back if it has strayed. Always loyal and obedient, the believer should use his ballot and his personal influence to establish and support good government.

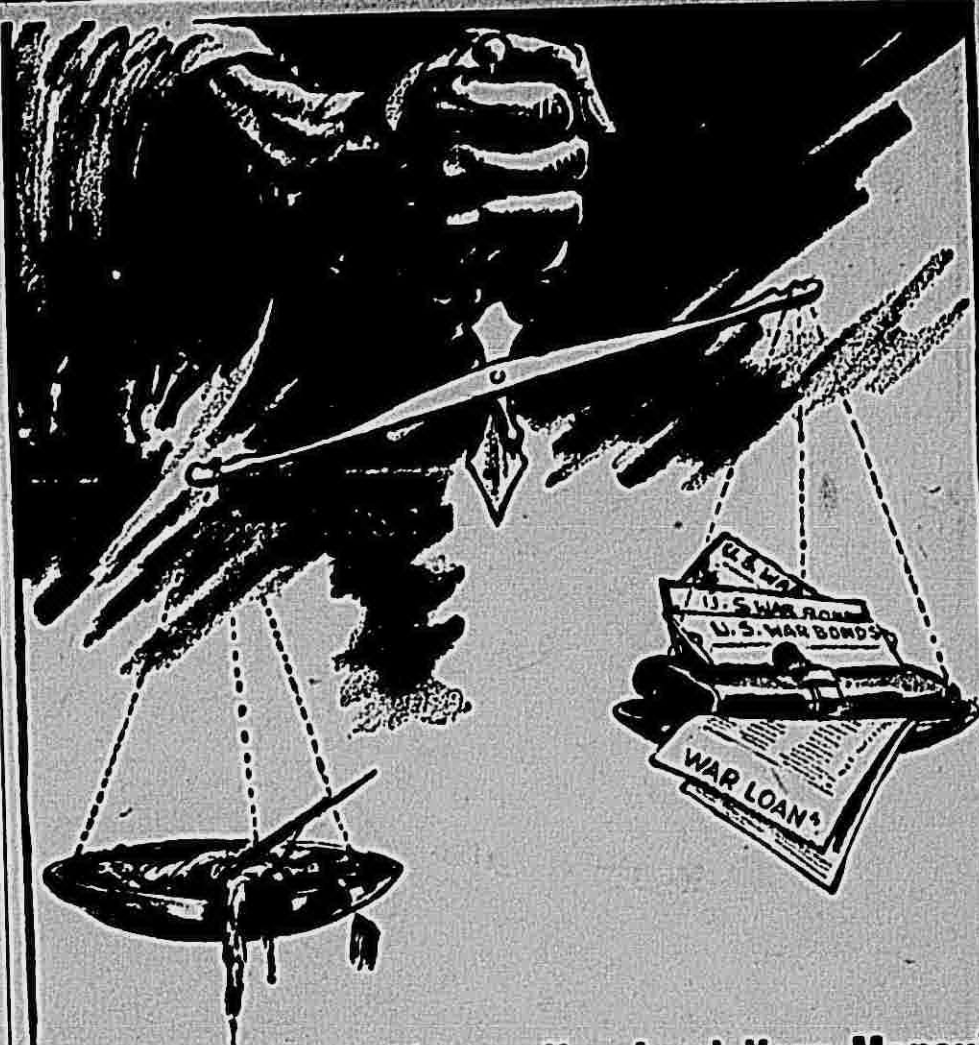

III. Suffering As Christians (2:19-25).

Christ is our "example" (v. 21). Since some have interpreted this word and the statement "that ye should follow in his steps" as indicating that we are saved by our imitation of Christ, it is well to point out that this would be quite impossible. We would have to begin where He began—He was without sin (v. 22). But we have all "sinned and come short of the glory of God" (Rom. 3:23). We need a Saviour—not an example as far as redemption is concerned.

In the ever present problem of suffering, we as redeemed ones do have Christ as our example. He who was sinless and without fault bore the shame and suffering of Calvary without complaint. When He was reviled He did not retaliate, when He was hurt He did not threaten revenge (vv. 22, 23), but was willing to leave the ultimate judgment in the hands of God, who will have the final word.

We ought to do the same when we suffer for Christ's sake. If we suffer because of our own sin or folly, we can claim no credit for bearing it patiently (v. 20). But when we have done well and then are persecuted, we have opportunity to show whether our profession of being followers of Christ really means anything. At this point some Christians lose their testimony and influence by a bitter, vengeful spirit.

These are trying days for the souls of men. In many parts of the world Christians are forced to drink the bitter cup of persecution. To the glory of God we record the fact that they are doing it heroically and in a true Christian spirit.

## WEEKLY NEWS ANALYSIS

### Hardest Fighting Still to Come: Byrnes; Chinese Forces Rout Foe Along Yangtze As Japs Drive Toward Wartime Capital; Allied Airmen Pound Objectives in Italy

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

Bringing back first-hand knowledge of Axis military technique gained from his observations on the North African front, Lieut. Gen. Lesley McNair (left), commander of ground forces, is greeted on his arrival at third army headquarters by Lieut. Gen. Courtney Hodges (center) and Maj. Gen. Wade H. Haislip. Lieutenant General McNair was wounded while on his inspection trip through the battle area.

#### BYRNES:

##### Reports to Nation

The 100,000th war plane rolled off the assembly line as the newly appointed War Mobilization Director James F. Byrnes spoke to the nation. "We have at length caught up with the Axis in our preparations and are forging rapidly ahead," he said. "We have a long, hard road ahead. The hardest fighting is yet to come. Now we must not only keep up our production but we must assume a major part in the all-out military operations of the enemy."

Recounting America's tremendous production achievements, Byrnes revealed that the U. S. turned out 100 fighting ships in the first five months this year; more than 1,000 cargo vessels were built during the 12 months ending May 31; 100,000 pieces of anti-aircraft cannon have been produced and 1,500,000 machine guns and sub-machine guns manufactured.

By April 1, Byrnes said, the U. S. will have spent 10 billion dollars in buying land and building camps and air fields in this country. Referring to his new position, he declared that he would seek to bring unity among the government agencies entrusted with carrying out the war programs, saying their teamwork was as necessary as that of the soldiers.

#### MANPOWER:

##### To Cut Deferments

Only 1½ million men will be deferred in industry by the end of this year, Paul V. McNutt, chairman of the War Manpower commission, declared.

During the year, McNutt said, 6,000,000 physically fit men, including fathers, will form the pool from which 2,700,000 must be inducted to round out the goal of 11,000,000 for the armed services.

Of the number, McNutt continued, 900,000 will be deferred for farm work, 900,000 will be exempted for dependency, and 1,500,000 will be deferred for industrial work.

McNutt urged employers to prepare for replacement of the 3 million men now deferred in industry, including fathers, whose general induction around August 1 recently was predicted by Selective Service Director Maj. Gen. Lewis B. Hershey.

#### FARM SUPPLY:

##### Simple Priority Needed

By merely filling out a form drawn up by himself or his retailer, a farmer will be able to obtain priorities on 176 types of supplies. Individual purchases, however, will be limited to \$25.

The form must simply read: "I certify to the War Production board that I am a farmer and that the supplies covered by this order are needed now and will be used for the operation of a farm."

To facilitate its ruling, the WPB ordered manufacturers to get the supplies into retailers' hands. Among the scarce items are batteries, chains, cold chisels, pitchforks, hoes, harness leather, galvanized pails, pipes, horseshoes, pliers, ropes, shovels, barbed wire and bale wire, wrenches, tubs and poultry netting.

WPB also is seeking to speed up output of axes, boxes, feedtroughs, egg cases, sprayers, hand cultivators, milk pails, wagon hardware and plowshares.

#### CHINA:

##### Route Japs

Five Japanese divisions of 75,000 men were routed as Chinese troops counterattacked along the Yangtze river. Even as the enemy was thrown back, American bombers and Chinese fighters swooped on the Jap air base of Ichang, and 10 tons of explosives were dropped.

The Jap rout came after they had thrust south toward the Yangtze in their drive to the Chinese provisional capital of Chungking, 295 miles to the east. According to the Allied communiqué, the Chinese armies developed an encircling movement, cut off the Japanese line of retreat, and then chopped up the entrapped units.

Besides raiding Ichang, Allied airmen were active over other sectors of China. Jap warehouses and railroad yards were blasted at Foochow.

#### GOP:

##### Post-War Committee

So that the next Republican national convention might have the basis for drawing up an appropriate platform dealing with the post-war world's reconstruction, 49 prominent members of the GOP were named to serve on a special committee to study the question.

Announced by National Chairman Harrison Spangler, the committee consists of 5 senators, 12 congressmen, 24 governors and 8 party officials.

According to Spangler, it will be the duty of the committee to chart a program embracing the extent to which this country should commit itself toward co-operating in maintaining world peace. Of equal importance, Spangler said, will be the committee's task of mapping a course for our own domestic reconstruction.

"We must plan for a free and prosperous agriculture; labor conditions which will insure labor its just share; and conditions which will permit industry to expand, grow, develop and produce the things which will add to our standard of living," Spangler declared.

#### ITALY:

##### Softened Up

Harbors, shipping and airdromes were left in flames as Allied airmen flew in from the east and west and pounded both ends of Italy.

Heavily hit were the port facilities of Naples, on Italy's western shoreline. To the east, the air base at Foggia was raided, with ground-planes, a gasoline dump and barracks offering the target.

In all, 150 Flying Fortresses and Liberators participated in the assaults. Despite the fact that fierce fighter opposition was encountered over Naples, the Allies reported no losses.

Meanwhile, other units of the North African air force continued to pound Sardinia, which sprawls in the Tyrrhenian sea west of Italy, and Pantelleria, the tiny island south of Sicily, where the Axis has developed underground hangars.

The Allies announced the loss of but one Lightning in these raids. Although admitting heavy damage from Allied raids, the Italians claimed to have shot down 57 British and American bombers over Pantelleria since May 1.

#### RUSSIA:

##### Nazi Claim Strength

Claiming that waves of dive-bombers and fighter planes had leveled the Russian base of Krimskaya and extended operations beyond in the Caucasus, the Nazis boasted of re-establishing their air superiority over their embattled bridgehead at Novorossisk.

Even so, Russian pressure continued against the Nazis' only foothold in the Caucasus, with the Reds developing another threat to Novorossisk by landing troops on the shores of the Taman peninsula to the Germans' rear.

Minor action flared on other sections of the Russian front. South of Leningrad, the Reds reported destroying a network of pill-boxes and dugouts, while shooting up a freight train. Before Smolensk, artillery fire was said to have wiped out two enemy companies.

#### COAL STRIKE:

##### Labor Crisis

America's wartime labor situation moved toward a crisis with the walkout of approximately 450,000 miners after a 30-day truce had failed to end in a new contract. Secretary of the Interior Harold Ickes, nominally the operator of the mines after the government had taken them over during the first strike threat, flayed both sides for the disruption of work.

As a basis for compromise, the UMW had suggested a settlement of the entire wage question by payment of \$1.50 per day as a solution of the portal-to-portal question, or compensation for the time miners spend traveling to and from their coal faces above and underground. The \$1.50 payment would be temporary until a mixed committee had worked out a final settlement of the issue.

The operators proposed portal-to-portal pay of 80 cents a day as a basis for discussion. The bone of contention entered into the issue of payment of overtime for 35 hours, which was a condition of the miners' last contract.

#### PAY-AS-YOU-GO:

##### At Long Last

The house took the first step in the passage of its conference committee's pay-as-you-go legislation.

One hundred and sixty-seven Republicans joined with 89 Democrats in approving the bill, which forgives all of one year's taxes of \$50 and allows for a reduction of 75 per cent on the remainder over \$50.

The legislation also provides for a 20 per cent tax, after exemptions on all salaries or wages. Persons obtaining incomes from other sources, like farmers, must estimate their yearly earnings and then pay off the liability on a quarterly basis.

Persons who are left with a 25 per cent tax after the 75 per cent forgiveness must pay off the remainder in two annual installments, due in 1944 and 1945. In all, the government hopes to recapture three billion dollars under the proposed bill.

#### CANNED MILK:

##### One Red Point

With canned milk production off 25 per cent from last year's output of 75 million cans, and with the government purchasing half of the supply, the Office of Price Administration placed condensed and evaporated milk on the rationed list.

Under the regulations, 14½ ounce cans, or several cans totaling 14 ounces or less, now are worth one red point. The 14½ ounce can is the size popularly bought for infants and the payment of one red point from their ration book, of course, will not be felt as severely as by adults, whose purchase will reduce their quota of stamps for meat, cheese and fats.

Officials estimate that the average adult needs three or four pounds—three or four points worth—of canned milk a week, if fresh milk isn't used.

#### ATTU:

##### Kiska Next?

Facing the west, Japanese soldiers bowed in hallowed respect of their emperor, then with a wild cry launched a final, suicidal counterattack against American troops on Attu island.

Mowed down by American fire, the attack collapsed, and the last organized enemy resistance on this westernmost of the Aleutian islands came to an end, some 20 days after the first American troops stole ashore under the protective cover of U. S. naval units.

Conquest of Attu turned eyes to Kiska, main Jap base in the Aleutians, isolated by the U. S. victory. Operating from Amchitka, American airmen continued to hammer the Japanese airplane, harbor and camp installations at the base. Approximately 10,000 enemy troops are supposed to be stationed on Kiska.

#### FRENCH:

Interned and disarmed at Alexandria, Egypt, since June of 1940, nine French warships will be returned to service in the Allied ranks within six months.

Among the vessels are the 22,000-ton battleship Lorraine, with eight 13.4-inch guns; the 10,000-ton heavy cruisers Duquesne, Tourville and Suffren, with eight 8-inch guns; the 7,240-ton cruiser Trouin, with eight 6.1-inch guns; three destroyers with four 4.1-inch guns, and the 1,384-ton submarine, Protee.

## LAKE VILLA

Village Clerk C. W. Reinebach announces that 1943 Village Vehicle tags due July 1 are now available, the price is \$2.00 for any motor vehicle. Get yours now.

Next Sunday, June 13, is children's day and will be observed at the morning service at 11 o'clock when the Junior and Primary departments will present a program of songs and recitations. Charles Caster, who was guest speaker at the worship service last Sunday, will also be present to preside and give a message. The public, especially parents of these children, is especially welcome.

The Woman's Society of Christian Service will meet Wednesday afternoon, June 16, with Mrs. Paul Avery, Sr., at her home on the north side of Cedar Lake, and visitors are welcome.

Rev. and Mrs. W. A. MacArthur and son, Jon, left early Tuesday morning for their new home and charge in Hermiston, Oregon. Rev. MacArthur will be ordained at his conference in

Portland next week and the new charge immediately his wife have made many friends during their three years here. They wish them much happiness in their new home.

Rev. W. A. MacArthur and wife, Miss Agnes Techert and Charles, of Antioch at the L. V. church.

Miss Rosemary DeSelms of St. Wis., visited at the Charles Hamlin home early this week and met her friend, Edna Jean, of the west of the village.

Mrs. Mildred Hucker left to visit her husband, J. O. Hucker, Jr., at his army camp at land, Ore., before her return. Miss Ethel Nelson is assisting Ann Madsen at the post office.

The Lake Villa Sewing club at the Charles Hamlin home Tuesday had a 12:30 luncheon and sewed during the afternoon.

Ray Druce of Grayslake is spending the week at the Paul Avery, Sr., home at Cedar Lake.

Jimmie, the small son of Mr. and

Mrs. Jake Fish, was five years old last week and his mother entertained a number of little folks at their home last Saturday afternoon to celebrate the occasion. It was a very enjoyable time for all of them.

Miss Anna Seeck is making her home with Mrs. Elmer Sheehan while Mr. Sheehan is in service. He is stationed at Camp Peary, Va.

Mrs. Betty Reinebach Anderson left Tuesday for Boston, Mass., to join her husband who is in training there. Mrs. Anderson has visited her parents here for a few weeks.

Mrs. Ethel Wood was hostess for the Royal Neighbor Officers club card party at her home Wednesday afternoon this week.

The Tuesday evening class for Red Cross surgical dressings opened this week for the convenience of many who cannot come on Monday or Thursday from 9 to 4 or Friday from 1 to 4. It is very little for us to do, compared to what our soldiers, sailors and marines are doing and may be a help to someone from our own township.

#### What Is Heat?

Heat is the sum of the kinetic energies of all the molecules of a body.

## HIGHLIGHTS ... in the week's news

**CHURCH:** Wendell Willkie called upon churches to measure the public actions of politicians according to the yardstick of their own teachings.

**PRICES:** Farm prices gained 2 points between April 15 and May 15. Advances in feed crops, fruits, potatoes and poultry offset drops in milk, meat and truck produce.

**STOCKS:** Trading on the Chicago Stock Exchange dipped to its lowest volume in 22 years during the fiscal year ended April 30. There were 295 memberships outstanding.

**FIGHTER:** Survivor of one jungle crash, 2nd-Lieut. Tommy Harmon, ex All-American from Michigan, recently arrived in North Africa for duty as a fighter-plane pilot.

## Illini Research To Meet Needs Of Aeronautics

The University of Illinois, long noted for its research contributions in the various fields of transportation, has a long-range program well under way relating to problems of the skyways.

The trustees have set aside \$100,000 for building changes, equipment, and installations "to develop a research and educational program on the influence of atmospheric environment on humans, including problems relating to aviation, submarines, and military medicine."

This initial activity is at the Colleges of Medicine, Dentistry, and Pharmacy in Chicago. There a low-range air pressure conditioned room, high range air and pressure conditioned chamber, and four- and seven-bed air-conditioned spaces have been provided for.

The next step in the aviation program will be construction of a modern airport at the main campus at Urbana-Champaign.

President Arthur Cutts Willard, himself a noted engineer, has pointed out that "during its 75 years, the University of Illinois has attempted to meet so far as possible the demands for new and varied educational and research programs growing out of the rapidly changing social, industrial, and professional life of the state and nation."

"The most recent demand for a new program of education and research at the University rests squarely on the amazing growth of air transportation all over the world."

"Important problems of education and research require a regrouping of fields of knowledge and concerted action of specialists in several departments and faculties in the University. Fortunately, Illinois has such a group of men, both in the medical and engineering fields, who have been co-operating effectively for many years in a research program on the effect of the atmospheric environment."

Explaining the work on the medical campus at Chicago, President Willard said that in the overall development of aeronautical education and research programs, the biological sciences have an important place. Researches involving the effect of weather and the atmospheric environment on human beings have been under way in the College of Medicine for a number of years.

## Average Home Bill for Heat Can Be Halved

Fuel consumption of the average home in Illinois can be cut in half next winter by reducing heat loss from the structure and by improving coal firing methods, according to University of Illinois engineers. They point out that the time to think about improving the structure is now.

"If every householder who burns soft coal would save only 10 per cent of his fuel by reducing the heat losses from his home and 5 per cent by improving the efficiency of his heating plant, the load on the war-busy railroads would be reduced by 15,000,000 tons, and 300,000 freight cars released for transportation of war materials," according to Prof. Julian R. Fellows.

Tight storm windows and doors—with emphasis on "tight"—will save 20 per cent of heat otherwise lost from an average home, according to tests at Illinois. An alternative is weather stripping, which will save about half as much.

Wall insulation, though somewhat expensive, will save another 20 per cent. Ceiling or attic insulation, less expensive, can save as much as 15 per cent.

Dropping house temperature 10 degrees during sleeping hours will save 5 to 10 per cent. Every degree reduction in all-day house temperature cuts fuel consumption 3 per cent, but University engineers advise against any too drastic cuts, urging instead that garages and unused rooms be left unheated, and heat be turned off in bedrooms when windows are open.

Heating plant efficiency can be increased both by having the plant checked and cleaned to put it in top operating condition, and by burning coal properly. A smoking chimney indicates a 50 per cent waste of fuel, according to Professor Fellows.

He gives three points for better firing: when adding fresh fuel, (1) move glowing coals to one side of firepot, (2) pile fresh coal on the other side, (3) leave glowing coals exposed to ignite smoke and gasses from the fresh fuel.

### Pre-Glacial Americans

Man may have lived in America before the last advance of the great Ice Age glaciers, according to an announcement by Prof. Paul MacCullough of Princeton. Ancient tools and other relics discovered during geological studies of the bed of a prehistoric lake in the White River region of South Dakota appear to have been in existence before the great polar ice sheet plowed down across that state.

## SALEM

Mr. and Mrs. William Krautkramer of Antioch called on Mr. and Mrs. Arthur Bloss, Sr., Sunday afternoon.

Joyce Dix, daughter of Mr. and Mrs. Frank Dix, had the misfortune to fall off a bicycle Sunday evening and break her arm.

Mrs. A. C. Stoxen is spending some time visiting her daughter, Mrs. G. Dorwin of Wauconda, Ill.

Mr. and Mrs. Stanley Stoxen and Mrs. Gertrude Davis of Bassett called on Mr. and Mrs. Byron Patrick Friday evening.

Mrs. Alfred Schmidt attended a shower Saturday evening honoring her niece, Miss Doris Kerchner of Woodworth, who is to become a bride.

Mrs. Henry Frautchy and son, Henry, were Antioch callers Friday afternoon.

Miss Florence Bloss spent the week-end with her parents, Mr. and Mrs. Arthur Bloss, Sr.

Jennie and Josie Loescher were dinner guests of Miss Olive Hope Sunday.

Mr. and Mrs. Walter Irving and son of Kenosha spent Sunday with Mrs. Jepson and attended the services at church in the evening.

Mrs. Janet Fletcher and Mrs. Arthur Bloss, Sr., are spending a few days in Chicago with Ogden Fletcher. Very impressive services were held at the Methodist church Sunday evening when the plaque bearing the names of boys of the church who are serving in the armed forces was dedicated. The boys serving from the Methodist church are as follows: Robert Patrick, Ray Patrick, Harold Vandenberg, Thomas Manning, Harry Stoxen, James White, Milton Frank, Charles Barthel, Charles Pleugher, Lloyd Basinger. Much credit is due the Rev. A. Attwood for the impressive services held before a large crowd.

The dedication of the Community Honor Roll was postponed on account of bad weather and will be held in the town square Sunday afternoon, June 13, at 2 o'clock.

## TREVOR

Mr. and Mrs. Joe Selear, Jr., and daughter, Carol, and Miss Madeline Selear of Kenosha were Sunday visitors at the home of their parents, Mr. and Mrs. Joe Selear, Sr. In the evening the latter called on Mr. and Mrs. Nick Fasel at Camp Lake.

Mr. and Mrs. M. Johnson, Arlington Heights, were Tuesday visitors of the latter's parents, Mr. and Mrs. A. J. Baethke.

Mrs. Nellie Hanke, daughter and son, of Antioch, were recent callers at the Daniel Longman home.

Several ladies from Trevor and vicinity attended the Willing Workers meeting at the home of Mrs. Robert Runyard, Jr., near Lake Marie on Thursday afternoon.

Mr. and Mrs. Karl Oetting and son, Chesley, have moved into the Collins cottage at Paddock Lake. Mr. Oetting has employment in Kenosha.

Mrs. Florence Evans entertained a number of ladies at a luncheon on Tuesday.

Miss Evelyn Jensen, Waukegan, is spending some time with her uncle and aunt, Mr. and Mrs. Alfred Dahl.

Cpl. Lawrence Hanson, stationed at A. T. Hill, Military Reservation, Va., is spending a six day furlough with his mother, Mrs. Minnie Hanson.

Mr. and Mrs. Allen Copper, son, Dennie, daughter, Frances, were Kenosha shoppers Thursday.

Mr. and Mrs. Charles Oetting were Silver Lake callers Thursday.

Mr. and Mrs. Charles Oetting were Silver Lake callers Thursday.

Mr. and Mrs. Charles Oetting were Silver Lake callers Thursday.

## HEALTH HINTS for LIVESTOCK

### HOW TO PREVENT LIVESTOCK LOSSES

If we could wave a magic wand which would wipe out all the livestock diseases and parasites which prey upon our farm flocks and herds, America could forget her meat rationing worries tomorrow and at the same time have abundant supplies for all land-lease needs.

That indicates the magnitude of the livestock disease problem which confronts farmers in every rural area today, as they strive to meet the govern-

Using chick vaccine to protect horse against sleeping sickness.

ment's stepped-up food quotas. Here, for example, is an estimate of losses annually caused by some of the more common diseases and parasites: Bang's disease of cattle — \$30,000,000; Mastitis — 19,000,000; Hog cholera — 12,500,000; Swine abortion — 10,000,000; Tuberculosis — 10,000,000; Internal parasites — 125,000,000; Cattle grub — 65,000,000; Poultry diseases — 40,000,000; Swine erysipelas — 1,000,000; Sleeping sickness, horses — 1,000,000.

These are just a few of the more common causes of losses. There are many others, including necrotic enter-

itis, shipping fever, anthrax, swine dysentery, influenza, and a whole galaxy of nutritional maladies.

Prior to more modern methods of animal disease control, these figures were much higher, yet much remains to be done. The importance of application cannot be overestimated. That disease will take an even heavier toll of farm livestock this year, there can be no doubt. Greater crowding of increased herds and flocks in limited quarters, and the present shortage of farm help, means that disease outbreaks may have an opportunity to make rapid headway before they are detected. And this means that many outbreaks will not be caught quickly enough to prevent serious losses.

The wise farmer will take steps to minimize this danger as far as possible, and here are several things he can do which will help to save costly losses:

Thoroughly clean and disinfect all livestock quarters.

Raise young livestock on clean pasture, away from old lots.

Have animals treated for both internal and external parasites, if they need it.

Have hogs immunized against cholera around weaning time, and in areas where erysipelas is present have them immunized against this disease also.

Have horses vaccinated against sleeping sickness before the insect season begins.

Isolate newly-purchased livestock for two or three weeks, before allowing them to mingle with the home herd.

Check livestock rations to see that they contain adequate vitamins, minerals, and proteins for health and growth.

If sickness does appear, call a veterinarian promptly, because a few days' delay may mean the difference between saving an entire herd or losing it.

The important matter this year is to keep every farm animal on the production line, in top condition for maximum output, and the more we can keep livestock diseases and parasites in check, the nearer we will come to accomplishing this purpose.

Henry Schumacher, Waukegan, spent over Sunday with the home folks.

Mrs. Anna Stenzel, Wilmet, spent Saturday evening with Mr. and Mrs. Joseph Smith.

Mr. and Mrs. William Galliard, Salem, were Sunday visitors at the Lee Wilson home.

Jeanette Brooks spent Sunday with her parents at Silver Lake.

Mr. and Mrs. Charles Oetting accompanied Mr. and Mrs. Fritz Oetting of Richmond to visit their son and wife, Mr. and Mrs. Karl Oetting and son, Chesley, at Paddock's Lake.

Mr. and Mrs. Larsen, Racine, were Sunday visitors of Mr. and Mrs. Alfred Dahl.

Mr. and Mrs. Edward Sevieck and son and Mr. and Mrs. Henry Novonty, Grayslake, were Saturday evening callers of Mrs. Sevieck's sister, Mrs. Allen Copper. Sunday visitors were Mr. and Mrs. F. Justat of Chicago.

Joe Chevana, Deep Lake, is doing interior decorating and Frank Wallace, Union Grove is doing the mason work at the Fred Nolte home.

Mr. and Mrs. Fred Forster and son, Fritz, Terra Haute, Ind., spent the week-end with the former's parents, Mr. and Mrs. Fred Forster, Sr.

Russell Longman, S. K. 1/c, U. S. N. R., and wife of Morehead, Ky., are here visiting their parents, Mr. and Mrs. Daniel Longman, and other relatives on a ten day furlough.

Charles Oetting was a business caller in Kenosha Monday.

Mr. and Mrs. Farm and son, Tommy, Lake Villa, and Mr. and Mrs. Cleve Nelson and son, Kenneth, of Antioch, were Sunday evening callers at the Mrs. Gretchen Nelson home.

Mrs. Harold Mickle accompanied Mr. and Mrs. Russell Longman to Pistakee Bay Monday, where they visited their aunt, Mrs. Fred Fowles.

Sunday visitors at the Daniel Longman home were Clarence Runyard, Chicago, Stanley Runyard and lady friend of Glenview, Ill., Mrs. Nellie Runyard and son, Wilson, Rock Lake.

Mrs. Gretchen Nelson, son George, and daughter, Una, and Miss Mary Dorsey attended a reception for the former's niece, Miss Agnes Teichert and Charles Ferris at the Guild hall, Antioch, Saturday evening.

## NEW DISCOVERY FOR MASTITIS

Due to Streptococcus Agalactiae

Here is good news for every farmer who has Mastitis in his herd. About ninety per cent of all Mastitis, or Garget, is caused by Streptococcus agalactiae. The new discovery, Beebe G-Lac (Tyrothricin) consists of Gramicidin and Tyrocidin. Beebe G-Lac stops the action of Streptococcus agalactiae. If Mastitis, due to this microbe, is cutting into your milk production... If your best dairy cows are in danger—now! Get Beebe G-Lac. You'll be amazed at the results. Beebe G-Lac is easy to inject into the teat canal. Beebe G-Lac goes right to work. Don't let Mastitis (due to Streptococcus agalactiae) rob you of your profits. Get Beebe G-Lac today.

Let us arrange laboratory tests of milk samples from your cows. Only 15c per sample tested. Ask us for details. No obligation.

Plans Are Made for  
Ladies' Summer League

That lake region keglerettes will have a chance to improve their games and continue with practice during the summer months was announced this week by Manager Lou Bauer of the Antioch Recreation.

The new ladies league, which will bowl at 8 p. m. Tuesday nights, will have as members many new bowlers who wish to gain skill before the regular season starts in the fall as well as the more accomplished performers.

Ladies who wish to enter the new league may do so at any time during the next few weeks, according to Bauer, and the first scheduled league games will be rolled June 15.

## Steals Nitrogen

Manure that contains much straw is best not applied to the garden as the decay of the straw will temporarily prevent the garden crops from getting much of the nitrogen in the soil.

## LEGAL

## ADOPTION NOTICE

State of Illinois, County of Lake, ss. In the Circuit Court of Lake County; In the Matter of the Petition of Donald Mills and Dorothy Mills to adopt a minor child.

General No. 45289.  
To: The unknown father of Baby Boy Johnson, and to All Whom It May Concern:

Take Notice that on the 5th day of June A. D. 1943, a petition was filed by Donald Mills and Dorothy Mills, in the Circuit Court of Lake County, Illinois, for the adoption of a male child named Baby Boy Johnson, a minor, and to change the name of said child to Ronald K. Mills.

Now, unless you appear within twenty days after the date of this notice and show cause against such application, the petition shall be taken as confessed and a decree of adoption entered.

Dated at Waukegan, Illinois, this 10th of June, A. D. 1943.

L. J. WILMOT,  
Clerk of the Circuit Court of  
Lake County, Illinois

GEORGE S. MCGAUGHEY,  
Attorney for Petitioners,

Betatron Aids  
Medical Fight  
With Disease

Medical science has a new weapon which may prove powerful against malignant growths in the human body. It is the Betatron, developed at the University of Illinois by Prof. Donald W. Kerst.

Cautioning that the machine is not yet ready for clinical use, he has told of tests indicating that this device, which is the most powerful x-ray in the world, may become a first-rank weapon of medicine in two ways, first by the use of its extremely energetic x-rays, and second by using directly the electron beam which makes the x-rays.

The Betatron was developed by Kerst as a high-voltage "atom-smasher" for research in atomic physics. It also is a powerful x-ray machine, compact and relatively inexpensive for the voltage produced. He built the first such instrument three years ago in his laboratory. The second, now operating in his campus laboratory, has an energy of 20-million electron volts.

Discussing the medical possibilities of the Betatron, Kerst explained that in present-day x-ray medical treatment, where energies up to 400,000 volts are used, the effect is greatest on the surface and decreases as the rays pass into and through the patient.

According to tests, at 5,000,000 to 20,000,000 volts the maximum effect of x-rays is no longer greatest at the surface but about 1 1/2 inches beneath. For medical application this indicates the possibility of reduced destructive effects to the skin and fatty tissues just beneath it, and increased effects on the deeper tissue where the effect is desired.

The Betatron produces a beam of electrons moving at the highest speed ever produced by man, only three one-hundredths of 1 per cent less than the speed of light. This beam is used to produce the high-voltage x-rays. Kerst believes the electron beam itself could be used for therapy.

"Sending the accelerated electrons directly into the patient is the most promising way to use the Betatron for therapy," he said. "At 20-million volts these electrons will penetrate as far as 4 inches and no farther. Thus there is no damage beyond the area of treatment."

The electron beam is not yet properly controlled for medical use, but when it is, it will have definite advantages over the x-rays now used for therapy.

Illini Extension  
Division Meets  
War-Time Need

Even though war work and military service are reducing the number of students in high schools and colleges, the war is putting a premium on education. Meeting this paradox is the University of Illinois Division of University Extension, which takes education to the war worker, soldier, or sailor who cannot come to the campus.

The Extension Division offers 86 college-level courses for accountability to mechanics for which University credit is given towards a degree from Illinois. Seventy-six of the 86 courses have been approved by the government as Army Institute courses.

The largest war service of the Extension Division is the Engineering, Science, and Management War Training, sponsored by the U. S. Office of Education, which provides federal funds for the purpose. In this training the University ranks second in the nation.

Fourteen thousand persons have been trained or are now studying in ESMWT classes in 50 Illinois communities. The number of subjects taught in one community ranges from one to 10, each of which may have several sections, making as high as two dozen classes meeting in one training center, and 500 students in a community.

Fifty-four different subjects are offered. Qualified experts from local schools or industries are instructors under supervision of faculty men from the University. Classes meet once or twice a week for a two- or three-hour session. Courses usually last 16 weeks. The only cost to the student is for books.

Also under ESMWT are campus courses in which University faculty members assist in training diesel officers for the navy, radio technicians for the army, and other skilled workers needed by the services and war industries.

## Power for Dehydrators

In 1943 150,000 additional horsepower will be needed to supply the requirements of dehydrators alone, at a cost of \$100 per horsepower. Of this about 42 per cent is for generating power, about 25 per cent for distributing it, and the remaining 33 per cent for motors and control to operate the plants.

'Star-Spangled Banner' New  
"The Star-Spangled Banner" was first printed, aside from newspaper publication, in the "Analytic Magazine" of Philadelphia in 1814. The title at that time was "The Defence of Fort M'Henry."

RATIONING  
TIME TABLE

## June 1—

Sugar stamp 13 becomes valid. Good for 5 pounds through August 15.

## June 6—

Red 1 Stamp becomes valid. Good through June.

## June 7—

Blue stamps G, H, and J expire.

## June 10—

Last day to mail in application for Ration Book 3. All applications received after today face the possibility of serious delays in the issuance of the new ration books.

## June 15—

Shoe stamp 17 in Ration Book 1 expires.

## June 16—

Shoe stamp 18 becomes good for one pair of shoes.

## June 30—

Last day for second periodic inspection of passenger car tires for B card holders. Blue Stamps K, L, and M expire. Red stamp J expires. Stamp 24, good for 1 pound of coffee, expires.

(New point ration charts on pages 6 and 7.)

SUMMER COURSE  
STARTS TODAY

The summer course for grade school children under the direction of Mrs. Clayton Bartlett will have its opening session at 9 o'clock Monday morning when those who expect to attend will be registered for the various courses.

The classes will be conducted from 9 to 11:30 a. m. in the new building.

War Time  
FEEDING TIPSLick Rationing With  
Back Yard Food Lot

"Rabbits are economical meat producers and can be raised in suburban back yards and in the country with a small investment. It is one sure way of reducing the family meat bill."

So states Dr. I. N. Gabrielson, Director of Fish and Wild Life Service of the U. S. Dept. of Interior.

"There are scores of back yards in this community lying idle," adds the Purina Chow Dealer of this city, "when with a little expenditure of time and money, and mighty little of either—they might be producing food for their owners and for Uncle Sam."

Along with the Victory Garden with its fruits and vegetables, such back yard projects might include the raising of domestic rabbit meat, broilers, roasting chickens, eggs, a milk goat, and possibly a shoat or two.

If you're interested in feeding your family well despite food rationing, a good man to see is the Purina Merchant. He is sponsoring a "Home Food Lot" program, aimed at making every possible home owner in our community independent and self-sufficient, thus releasing much vital food to our soldiers and allies.

Available at his store are a number of free booklets and circulars containing valuable information on how to turn your back yard into a "Home Food Lot." Or write to Purina Mills, St. Louis, Mo.

## BIDS WANTED

The Antioch Township High school board of education will accept sealed bids on or before June 19, 1943 at 5 p. m. on the following work: washing and painting, one coat, eleven (11) class rooms. Building will be open daily from 9 to 4 for inspection and measuring, or by appointment. Bids will be accepted for all or part of work. The Board reserves the right to reject any or all bids.

GRAY HAIR? GET  
GRAYVITA!

This miracle anti-gray hair formula, Calcium Panthote PLUSI, has won wide popularity as the result of tests shown in a leading national magazine. This report revealed that 88% of persons tested showed positive evidence of a return of hair color. GRAYVITA is a GRAYVITA tablet is 10 units of Calcium Panthote PLUSI 450 U.S.P. units of Vitamin B<sub>12</sub> and the other useful B Complex Vitamins. Taken internally, GRAYVITA frequently restores a natural color pigment through the hair roots as this vitamin deficiency in the body is replenished. Order GRAYVITA now! Only \$1.00 for 30-day supply, \$3.00 for 100-day supply. (Formerly \$2.00 and \$5.00) Phone
